The Aviation Career Education Camp (ACE) promises you one of the most exciting times of your life! If you think you might like a career in aviation, this is your chance to find out what it's all about. You'll be treated to experiences you've only dreamed about! Your teachers, flight instructors, and camp counselors will introduce you to a wide variety of possible aviation careers and let you take the controls of an aircraft. Whether you have lots of flight experience or none at all, our flight instructors will take you to the next level.

Get Ready to Fly

Daniel Webster College's aviation facilities are located at the Tamposi Aviation Center at the Nashua Municipal Airport, just a five minute walk from the residence halls and classroom buildings. The Aviation Center houses a flight operations center, classrooms, and separate flight and air traffic control simulation laboratories. The College's fleet of aircraft numbers 30 and includes Cessna 172s, Piper Arrows, Seminole, and Grob G109B motor gliders. Campers fly primarily in the Cessna 172s.
